- TAKE THE STRESS OUT OF PARTY PRE-ORDERS
- SAVE VALUABLE TIME & MONEY
- OFFER CUSTOMERS A UNIQUE SERVICE

**Oxford restaurant owner Tom Buswell** chose **mymenuchoice.com** to manage his party bookings over the hectic Christmas period. He directed his guests to the **mymenuchoice.com** site, where they placed their orders. Shortly before a party, Tom's staff were able to log into **mymenuchoice.com** to see all the orders for each guest and party that night.

Tom is over the moon with **mymenuchoice.com**. "Quite simply it's brilliant. Rather than tying up valuable staff time receiving orders on the phone, filing emails or letters and trying to co-ordinate scraps of paper, each party was recorded on one simple screen. We could focus on our customer's experience and they all loved it! Plus we reduced wastage by being able to order correct quantities from our suppliers."

**Andrew Norton Restaurant Manager**

"I co-ordinated a wedding party of 140 using **mymenuchoice.com**. We offered the bride & groom & their guests a 6 course reception dinner with a choice of 4 dishes per course. It was a huge success, especially as we gave out every dish by each guest's name! There was no wastage, and Chef was delighted. I am now using the system in my restaurant all year round!"

**Carla Sartor, Guest:** "It was amazing. The website was easy to use to choose our food, and everyone at the meal will always remember the high quality service and stunning food that we had that day!"

**Stephen Bate, Wedding Guest:** "It was the best service and meal I've had at a wedding! It was great to be served food that we all loved as we had our own personal menu – what a great idea! It was fantastic!"

**Don't let pre-orders let you down!**  
**Get it right every time with **mymenuchoice.com****

Stand out from the crowd with **mymenuchoice.com**. A simple online system that dramatically increases your efficiency.

### Unique online ordering

These days everyone uses the internet. Whether it's buying theatre tickets, grocery shopping, booking your next bowls session or holiday – it's easy, fast and used by young and old alike!

**mymenuchoice.com** works by offering a unique online ordering service for party bookings. Rather than filling in photocopied sheets of paper your clients can choose their food online.

- It will **increase efficiency** and tighten margins as **waste is reduced**.
- It helps Chef order the **correct amounts from suppliers** with a special section dedicated and designed to make their job easier.
- And when it comes to service you can offer the ultimate experience, **no mistakes, no lost orders** and your staff can even give out each dish by every guest's name!

### So how does mymenuchoice.com work?

- Guests call to make their booking
- You set up their party online & assign a menu
- Guests log on and make their choice at the click of a button
- You can view & print off entire list of pre-orders
- On the night no mistakes, excellent customer service & no waste.

### Reduce the stress

Quite simply **mymenuchoice.com** takes the stress out of party pre-orders. From concept to completion it's been created in collaboration with industry professionals and can be used for all group bookings, from corporate functions to Christmas parties, children's parties to weddings.

### Add it to your website

Our graphic designers can also work with you to tailor **mymenuchoice.com** to your house style. By integrating the system into your existing website, you can maintain your image and branding, using your own logo, graphics and artwork.

You inspire a team to run your venue like clockwork. You strive for excellence. You pride yourself on having the best suppliers with the freshest produce, a talented chef with creativity and flair, and a level of service that aims to be second to none... why not go that step further?
